Published 03/21/2012

Everyone really needs an estate plan, but are women in need of an estate plan more than men?

1. Women Often Outlive Men
2. Many Women Earn Less Over Their Lifetime Than Men
3. Most Custodial Parents Are Women
4. Women Are Business Owners

#### *Do I Need An Estate Plan?*

*In a word, YES!*

*No matter where you fall on the "wealth," spectrum (and for this article, we'll define "wealth" in economic terms, rather than emotional or spiritual), it's important to make estate planning a top priority. And, just as with all things "Mars/Venus," a woman's estate planning needs are much different than a man's – all the more reason to take charge of your own financial future.
